

HORSESHOE VALLEY

LOCATION: ORO-MEDONTE, ON
CLIENT: SKYLINE INTERNATIONAL DEVELOPMENT
TYPE: RESORT PLANNING
DATE: OVER 20 YEARS

MHBC has been assisting Skyline International Development in the revitalization and the planning component of the Master Plan design for the redevelopment of Horseshoe Resort. The site has been operating as a ski and golf resort for over 20 years and is currently being redeveloped for additional resort, residential, public and employment uses. This project involves creating a "Main Street" with a variety of commercial and service-related storefronts reminiscent of small-town Ontario. MHBC is currently working on specific zoning and site plan applications to bring the component parts of the Master Plan to the building permit stage.
