

KEELE VALLEY PITS REDEVELOPMENT

LOCATION: CITY OF VAUGHAN
 CLIENT: YORK MAJOR HOLDINGS
 TYPE: MUNICIPAL APPROVALS
 DATE: 2004

MHBC participated on behalf of York Major Holdings in facilitating approvals and a common vision among diverse stakeholders. The result was the rehabilitation of three gravel pits. The first phase of redevelopment, Eagle's Nest Golf Club, opened in May 2004. The course has consistently ranked among Canada's top facilities including best new course:

"The dream of a group of developers, the majority of Eagles Nest was initially an old aggregate pit, with some natural rolling meadows and trees and a capped landfill. Toronto designer Doug Carrick created an inland links with massive faux dunes, acres of fescue and crafty, rolling greens." (Score Golf 2006)
